Summary of Modifications to SMART in November 2012 Release
Release Date November 16, 2012

This table summarizes the major changes for users in November 2012 SMART Release.

There is one change in the new version to provide greater functionality to the user or to correct previous issues, as summarized below.

Module Affected	Description
Client Profile and Intake	The ZIP code which is entered on the Client Profile will drive the counties that are available for selection on the both the Client Profile (county) field and the Residence field on the intake screen. For example, if 20879 is the ZIP code on the profile, only Montgomery County will be selectable as the county on the intake screen, as 20879 is only a Montgomery zip code. If 21104 is on the profile, Carroll, Howard, and Baltimore county will be options to choose on the intake screen, as that ZIP code spans three counties. Zip codes in Virginia, Delaware, District of Columbia, West Virginia, and Pennsylvania will translatesu to the proper state. All other US ZIP codes will translate to "Other out of state" on the residence field for both Client Profile and Intake. If a client resides out of the US, the user should enter 00000 for the Zip code, which will translate to "Out of country."
