

Summary of Modifications to SMART in Version 10.5.2
Release Date –September 18, 2009

This table summarizes the major changes for users in SMART Version 10.5.2.

Several modules change in the new version to provide greater functionality to the user, as summarized below.

Module Affected	Description
Client Search	SMART now allows the user to search for a client name using an apostrophe without triggering a yellow error screen.
BSAS Scheduler	This version provides a new version of the BSAS appointments by Level of Care report, developed using Microsoft Silverlight.
Department of Juvenile Services (DJS) Needs Assessment	This module is intended ONLY for use by authorized users at DJS, as it requires installation of additional software. However, the “Print Blank Form” button now allows the user three choices. Users may choose to print the form for “Full Assessment,” “Reassessment for kids living at home,” and “Reassessment for kids living in Group Home, Institutional Care, or Secure Confinement.” The report button changes from “View Results” to “Summary Report” to be more consistent with other DJS assessments.
Department of Juvenile Services (DJS) Treatment Plan	The objectives and goals fields in the Treatment Service Plan are modified to accommodate longer text fields. The Next Review Date on the DJS treatment plan is now calculated as 90 days after the Plan Start Date.
DTMS	There are several changes to the new drug testing management system, which will be released to two agencies this fall.
Client Profile	The Veteran’s Status field will now be limited to: Never In Military, On Active Duty, Veteran, Veteran-IN Combat 0-6 months ago, Veteran- IN Combat 6-12 months ago, Veteran- IN combat more than 12 months ago. If other veteran’s status was chosen for historical records, that status will be preserved in the client record.
